

**2008 rose of syrah
santa barbara county**

we pick the syrah grapes in this rose specifically for this wine – no saignee!

the color is bright pink/salmon – looks like it will glow in the dark. you will find the nose of tangerine/oranges, with watermelon, pomegranate, and pink lady apples. the minerality is slate like and on the palate white lilies and herbs are offered. the finish is long and filled with the aforementioned fruits. this rose is done in the provençal style with a soft tannin structure that comes from the 6 days of 40% skin contact.

always great as an aperitif, or paired with fish, chicken or our favorite – spicy thai food!
