

**2008 viognier
santa barbara county**

the wine is juicy, vibrant, lively, even rich. nose is perfumey and powerful offering meyer lemon, kaffir lime, white peach, tangerine, and mango. non-fruits include white flowers, citrus blossoms, honeysuckle, lemon pudding, herbs de provence (primarily lavender), with a hint of candied ginger. the minerality comes across as dry stones.

the palate confirms the nose and the finish is big and long with a great bright acidity that allows continual evolution of the lingering flavors. this wine is cool, crisp and ready to be paired with shellfish and your favorite spicy foods.
